

BERKSHIRE SEAMSTERS
Latino Women's Sewing Pod

Dear friends:

We are a group of 28 Latino women who came together at the beginning of April as part of a larger Berkshire Sewing Team to sew face masks for our first responders, essential workers, and the community at large. So far we have sewn over 14, 000 masks! And have donated or sold most of them to local agencies and businesses. But we have a backlog of 3,000 cloth masks and are desperately looking for buyers!

Would you help us? We are low income, head of household, immigrant women, who found ourselves out of jobs because of COVID-19 and with no way of getting any governmental financial support. Selling these masks is our only source of income.

Please consider purchasing masks from us for yourself, your family, your business, or even to donate to those in need. Masks are \$6.5 at piece or \$5 if buying in bulks.

Please contact our Team Leader
